

Catholic College Sale

2026 Accelerated Pathway Criteria for Year 9 and Year 10 Students

Catholic College Sale sets a minimum requirement for students wishing to apply for a VCE or VET pathway in 2026. Some current Year 9 students (2025) may be interested in applying for a VET study, or alternatively, a Unit 1/2 VCE study in 2026. Current Year 10 students (2025) may wish to undertake a Unit 3/4 study in 2026. This may be a continuation of studies already started. In order for approval to be given for these courses of study, students will need to meet certain criteria throughout the current academic year.

VCE Unit 1/2 or Unit 3/4

VCE students can include a maximum of six subjects in the calculation of their ATAR score. Students who meet the specific selection criteria can achieve this by studying a Unit 1 and 2 subject in Year 10 and then a Unit 3 and 4 subject in Year 11. This can be a continuation of study or a change to a different Unit 3 and 4 subject that does not have a prerequisite of Unit 1 and 2. Year 11 students will be able to apply for a Unit 3 and 4 subject, even if they have not completed an accelerated pathway at Year 10, provided prerequisites and selection criteria are met.

There are potential advantages to be gained by completing a VCE subject in Year 10.

- Early exposure to the VCE program.
- A path of extension and challenge.

Students wishing to apply to study a Unit 1 and 2 when they are in Year 10 are required to submit an application through the normal subject selection process. They must meet the following criteria:

- **Maintain an above-average GPA level in all subject areas**
- **Consistently achieves expected levels of learning behaviours on the organisation rubric in cyclic reporting.**
- **Consistently achieves above expected levels of engagement in learning on the engagement rubric in cyclic reporting.**
- **Display a consistently acceptable level of attendance (above 90%).**
- **Demonstrate adherence to the behaviour standards that are expected at the College.**

Although it is possible to accelerate study in the VCE, there are a number of reasons why it is not in the best interests of all students. In particular, a student could be disadvantaged if they

experience difficulty studying an accelerated unit and subsequently struggle to concentrate on their other subjects, thereby undermining their overall program and preparation for study of Unit 3 and 4 subjects in Year 12.

VDSS (VET Delivered in Secondary Schools)

The VET Delivered in Schools program allows students to develop industry specific skills, employability skills and an understanding of the world of work. A VET study can count towards a pre-apprenticeship qualification.

The majority of VET courses offered at CCS occur one day a week. It is expected that students will work hard in assigned study classes and outside of school hours to keep up with classes missed on that day.

Students wishing to apply to study Year 1 or Year 2 VET when they are in Year 10 or Year 11 are also required to submit an application in Term 3 that shows they meet the following criteria:

- **Have met with the College's Pathways Coordinator to discuss their individual pathway options**
- **Consistently achieves expected levels of learning behaviours on the organisation rubric in cyclic reporting.**
- **Consistently achieves above expected levels of engagement in learning on the engagement rubric in cyclic reporting.**
- **Display a consistently acceptable level of attendance (above 90%).**
- **Demonstrate adherence to the behaviour standards that are expected at the College.**

Subject selection will take place in Term 3.

Kind regards
