Personal information about students is also collected from other sources like health care providers, or from another school or other education body that provides references.

Personal information may also be collected by the College under the CISS and FVISS following a request for information from another prescribed Information Sharing Entity (**ISE**) or following receipt of information that has been voluntarily shared by another ISE. Other ISEs include Victoria Police and family violence specialist services. Information sharing may be authorised or required under CISS or FVISS where this may promote child wellbeing or safety and/or to help assess or manage the risks of family violence. The College does not provide facilities for the secure transmission of information across the Internet. Users should be aware that there are inherent risks transmitting information across the Internet.

8.0 HOW INFORMATION COLLECTED IS USED AND DISCLOSED

- anyone to whom the College is required or authorised to disclose the information by law, including for child protection purposes (e.g. for the purposes of sharing information under the CISS or FVISS).

The College may also use personal information it collects to:

- confirm the suitability of volunteers, job applicants and contractors and administer their work;
- undertake fundraising appeals and marketing activities and communicate with students, parents, guardians and carers to promote the future growth and development of the College;
- communicate to the broader community about the College's activities, events and student achievements;
- help facilitate religious and sacramental programs
- help facilitate school exchanges, including overseas;
- meet insurance requirements.

8.1 Overseas disclosures

The College may disclose personal information about an individual to overseas recipients, for instance, to facilitate a school exchange. However, the College will not send personal information about an individual outside Australia without:

- obtaining the consent of the individual (in some cases this consent will be implied); or
- otherwise complying with the APPs or other applicable privacy legislation.

The College may also store personal information in the 'cloud', which may mean that it resides on servers of third party cloud service providers situated outside Australia. The countries in which servers and third party online service providers are located may include, but are not limited to, Singapore, Thailand, Japan and the USA.

The College may also use the services of third party online service providers (including for the delivery of third party online applications or Apps through *G Suite for Education* or other platforms) to support its delivery of education and pastoral care services. Only limited personal information will be disclosed.

College employees and authorised IT service provider(s) may have the ability to access, monitor, use or disclose emails, communications (e.g. instant messaging), documents and associated administrative data for the purposes of administering the IT system and services, ensuring their proper use.

The College makes reasonable efforts to be satisfied about the security of any personal information processed and stored outside Australia, as not all countries are bound by laws which provide the same level of protection for personal information provided by the APPs.

9.0 MANAGEMENT, SECURITY AND ACCESS TO INFORMATION COLLECTED

9.1 Management and security of personal information

The College implements various measures and procedures to protect the personal information it holds from misuse, interference, loss, unauthorised access, modification or disclosure. These include, but are not limited to, locked storage of paper records, access protocols, password protected computerised records, high level security measures and encryption.

The College will respond to any incidents which may affect the security of the personal information it holds in accordance with the *Privacy Act 1988* (Cth) and the *Privacy and Data Protection Act 2014* (Vic.). If the College assesses that anyone whose information is affected by such a breach is likely to suffer serious harm as a result, the College will notify the affected individual(s) and the Office of the Australian Information Commissioner (**OAIC**) of the breach.

If concerns exist about the security of personal information held by the College, an individual is advised to notify the College immediately so appropriate action can be taken.

9.2 Access to and correction of personal information

Under the *Privacy Act 1988* (Cth) and the *Health Records Act 2001* (Vic.), an individual has the right to access personal information which the College holds about them (subject to certain exceptions) and to advise the College of any perceived inaccuracy.

Students will generally be able to access and update their personal information through their parent(s), guardian(s) and/or carer(s), but older (mature) students may seek access and correction themselves.

When making a request, an individual may be required to verify their identity and may be charged a fee to cover the cost of verifying the application and locating, retrieving, reviewing and copying any material requested. If the College cannot provide the information or does not consider it needs correction, the individual will be given a written notice explaining the reasons for the refusal of the request.

9.3 Consent and rights of access to the personal information of students

Generally, any requests for consent and notices in relation to the personal information of a student will be referred to their parent(s), guardian(s) and/or carer(s). Consent given by parent(s), guardian(s) and/or carer(s) will be treated as consent given on behalf of the student. Notice to parent(s), guardian(s) and/or carer(s) will act as notice given to the student.

At the discretion of the Principal, on the request of a student, that student may be given access to their information or may be allowed to give or withhold consent to the use of their personal information, independently of their parent(s), guardian(s) and/or carer(s). Normally this would be done only if the maturity of the student and/or their personal circumstances warrant it.

On occasion, access may be denied, for example if the release of the information would have an unreasonable impact on the privacy of others, or it may result in a breach of the College's duty of care or other legal obligations to an employee or student.

The College may be required or authorised under the CISS or FVISS to share information with other ISEs without the knowledge or consent of the relevant student or their parent(s), guardian(s) and/or carer(s).

10.0 ENQUIRY AND COMPLAINT PROCEDURES

If further information is sought about the way the College manages the personal information it holds, requests can be directed to the Principal.

If making a privacy complaint, details of the complaint are to be made in writing to the Principal. Receipt of the complaint will be confirmed. A response to the privacy complaint and a proposed resolution will usually be provided within 21 days.

If not satisfied with the response or the decision, an individual may make a complaint to the Office of the Australian Information Commissioner.
