Unacceptable forms of permission

- Text Message
- Email
- Phone call from school/student mobile

Parent Access Module (PAM)

The Parent Access Module (PAM), allows for real-time feedback on students' results and provides a greater connection between the College and home.

When a teacher marks an assessment task, they enter the marks into the SIMON system. With PAM, parents can access the assessment task marks as soon as they are entered into the system, without having to wait until the end of the semester.

Parents will also have access to 3 cycles of formative feedback during a semester. These formative reports will provide feedback on student engagement and participation along with 3 simple actions that the student can take to further their learning in each subject.

PAM also allows access to the school calendar as well as each student's school profile which includes timetable, attendance data, commendations, and historical reports. If you have lost your PAM username or password please use the forgot password option or contact the College directly.
